

Palatine Park District - Hay Storage Building (18-125-21F)

Notice to Bidders/Plan Holders

Regarding: Cancellation of Bid

The Palatine Park District is cancelling the Hay Storage Project for 2021, and the Bid Opening on September 22 at 10:30 am.

The project is being cancelled due to unanticipated project and supply costs as well as excessive ordering and production lead times. These conditions will not allow the Park District to properly fund and completed the project within the outline the District originally had planned for. The District is hopeful to revisit the project in a future capital planning process.

Questions should be addressed to Steve Nagle, snagle@palatineparks.org
